

A Word About the Corona Virus and Covid 19 that Emanated from China to the World

(please read in its entirety)

There is no doubt that we live in changing times but when the Spanish Flu hit no one thought it was “racist” to call it that, nor was it racist to call the Measles pandemic German or it the Honk Kong Flu. Today, it is undisputed that Covid 19 originated in Wuhan Province in China and most experts agree it did not come from any open-air market. The facts that are on the record and are undisputed are that the CCP (Communist Chinese Party) banned all travel from Wuhan to any other area of China, but they allowed travel to the US, Europe, and other Asian countries. Experts universally agree that if the CCP had conducted the same ban on foreign travel that the world might have been spared, but that is not what they did and there is no debate to these facts. So, the question is how do we prevent this from happening again? Unless there are consequences of these actions it will most certainly happen again as history has demonstrated since the dawn of man. One must take ownership of their actions and it is our belief that the CCP have not. It is also important to properly recognize the attributes of the Communist Party and the danger they represent to the rest of the free world as well to their own people who they have murdered more than 90 million of since taking power. It is our belief that you cannot protect yourself from danger unless and until you understand what represents danger! The CCP represents extreme danger to the free world, and we have the Chinese Covid 19 to prove the point which is not an indictment of the Chinese people but rather that of their Communist government officials alone.

The ownership team of Larsson’s Crooked Creek Resort believe one demonstrates through actions if they are racist. Our resort is open to all and last summer a 4-car caravan of Asians with small children came to us as every other campground had turned them down no doubt “true racism”. We not only gave them 3 of our primitive cabins because it was raining so they would not have to set up tents in the rain, but we helped to feed them, and we charged 18 people \$100 total for the night just so they would not be humiliated by accepting a total handout which I am not sure they would have accepted anyway. Two of the owners have done medical mission trips to Ecuador and the Dominican Republic in the last 3 years. So, the regard we have for human life should be demonstrated in our actions to all and especially to those that think our reference to China is racist, it is not, nor was it ever and we would suggest a better understanding of the definition of “racist” like putting one ethnicity over another or turning away someone from our resort based on their race. We would never mention these acts because we believe they are diminished by calling attention to them but when charged as “Racist” we have no choice other than to set the record straight by the examples we live by every day as nothing speaks louder!

No one should suffer prejudice, violence or abuse due to their national origin, religion, sex or circumstances and we wholeheartedly and loudly call any person or group who acts in this manner as “cowards and criminals” and condemn their actions without hesitation. The Chinese people are not responsible for the Covid 19 virus, not the Chinese in China or anywhere else in the world. All acts of violence are 100% wrong and should be punishable by law and all Americans should reach out to Americans of Asian descent with support, love and reassurance of our countries support as we should to all fellow Americans red or blue, black or white, Christian or Jew!

Larsson’s Crooked Creek Resort will not tolerate discrimination of any kind and anyone who violates these rights and denies anyone’s opportunity to enjoy their experience here will be asked to leave immediately and if necessary, the police will be called. All are safe at our resort whether they are black, white, yellow, or brown, no matter what (if any) God they choose to worship or any other factor that one could use to divide us.

We hope that you fully understand and appreciate our total candor and position on the “Chinese Covid” and the value and respect we place on all human life regardless of race, religion, national origin, sex or income!
